Happen Bank Visual Identity Interim Guidelines

3.18.26

Logo

Our logo is the most recognizable expression of our brand. It represents who we are at a glance and plays a critical role in building trust and recognition. By applying it consistently across every touchpoint, we ensure the brand always shows up clearly, confidently, and cohesively.

Logo

Primary logo
Orange full wordmark version on white background

Secondary logo
Monogram version reversed out of orange

Happen Orange logo
For use on light backgrounds.

White logo
For use on Happen Blue, orange, or dark backgrounds.

Black logo
For limited use in one-color applications.

Logo

Clear space

To maintain the logo's visibility and impact, ensure that no other elements intrude within its clear space. Our clear space is defined as twice the height of the B in Bank. This area should remain free of any text, graphics, or other design elements.

Logo - transitional

Typography

Typography plays a key role in how our brand is experienced day to day. It helps organize information, guide the reader, and bring a cohesive look and feel to everything we create. When used consistently, it keeps things clear, approachable, and connected across every touchpoint.

Clearing the way for better banking.

Typography

Rethink Sans

ExtraBold *Italic*

Typography

Primary typeface

Typography plays a key role in how our brand is experienced. Consistency builds trust, sharpens clarity, and reinforces recognition. Rethink Sans is our primary typeface, bringing a modern, approachable feel across all touchpoints.

We use a focused range of weights to create clear hierarchy and maintain a cohesive system. This consistency helps every interaction feel connected, considered, and unmistakably Happen Bank.

Typography

Hierarchy

Typographic hierarchy helps people quickly understand what matters and where to look next. By creating clear differences between headlines, subheads, and body text, it clears the way for information to flow naturally and makes content easier to scan and absorb. A consistent approach keeps everything feeling organized, approachable, and easy to navigate.

EYEBROW HEADLINES

Rethink Sans ExtraBold + All Caps + Tracking: 300pt

Headlines are set in Rethink Sans ExtraBold.

Sub-Headings are set in Rethink Sans Bold.

Body text is set in Rethink Sans Regular. To emphasize certain words, quotes or important paragraphs, additional styles can be used: **Bold**, *Italic*, underlines and for acronyms and similar constructions, ALL CAPS (e.g. NASDAQ, WWE, etc.).

Caption Titles Are Set in Rethink Sans ExtraBold
Captions, body text in sidebars, financial information, headers & footers and other types of secondary-level text can be set in Rethink Sans Regular. These are to be set in a smaller type size than the body text.

Typography

System typeface

In situations where we need to ensure compatibility across all users, such as in Microsoft Word, PowerPoint, Excel, or email, we use system-installed alternatives to maintain consistency and accessibility for everyone.

In these cases, we use Aptos in place of Rethink Sans.

Aptos ExtraBold

Photography

Our photography is a strong story telling device. It can capture either us or our customers. Our photography is real, grounded, and unposed.

Photography

Style and approach

Images should feel documentary and unposed, capturing real moments as they naturally unfold. Focus on subtle storytelling and human connection rather than staged scenarios. The overall tone should feel optimistic, grounded, and forward-moving.

Light and color

Use warm, golden-orange light to create a consistent tone. Favor directional, imperfect lighting with natural contrast and depth, avoiding anything overly polished or artificial. Look for natural opportunities to incorporate pops of brand orange in clothing, environments, or objects.

Authenticity

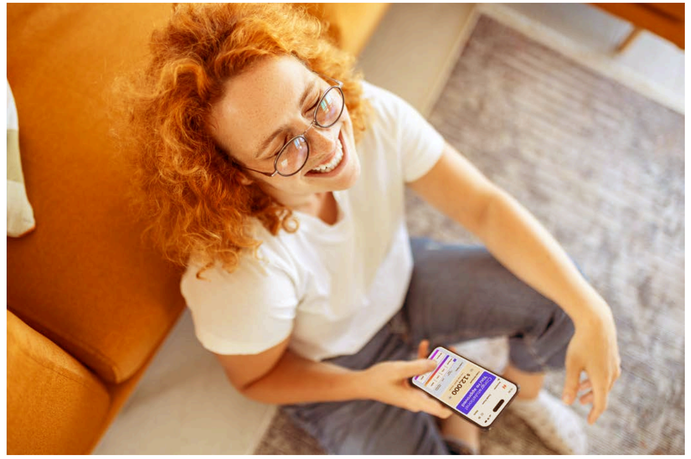

Prioritize genuine expressions and believable interactions. Look for candid, in-between moments that feel observed rather than directed. Embrace documentary-style framing and look for unique, lived-in environments such as homes, transit, and workplaces.

Banking Context

Show how financial moments exist within everyday life—paying, planning, moving, building, and progressing. Keep cues subtle and integrated into real environments.

Composition

Use natural, slightly imperfect framing with depth and varied perspectives. Environments should feel lived-in and authentic, with a sense of movement where possible.

Photography

Categories

These categories represent the core ways our brand shows up in people's lives. From everyday interactions to major life transitions, each one reflects a moment where money supports forward movement. Across all categories, imagery should feel warm, authentic, and naturally connected to everyday life.

Tools & Technology

Moments that show people interacting with devices in various locations. Look for possibilities to include screenshots of our digital assets. The vibe should be positive, easy, comfortable, on the move.

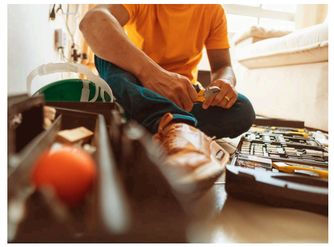

Build what matters

Improving living spaces through hands on renovation and upgrades. Look for interesting angles and perspectives as well as opportunities for brand colors. Finished projects should feel fresh, clean and modern.

Life moments

Stepping into a new life chapters: marriage, children, moving, medical, and all the planned and unexpected expenditures along the way. Genuine expressions and body language captured with a sense of movement and joy.

On the road

Showcasing the vehicle from the inside and out, these images should feature people interacting in unique moments with a sense of authentic personality and the vehicle serving a positive role in their lives.

Entrepreneurial momentum

Featuring a diverse spectrum of business people. Look for opportunities to capture architectural perspectives and a sense of movement and momentum.

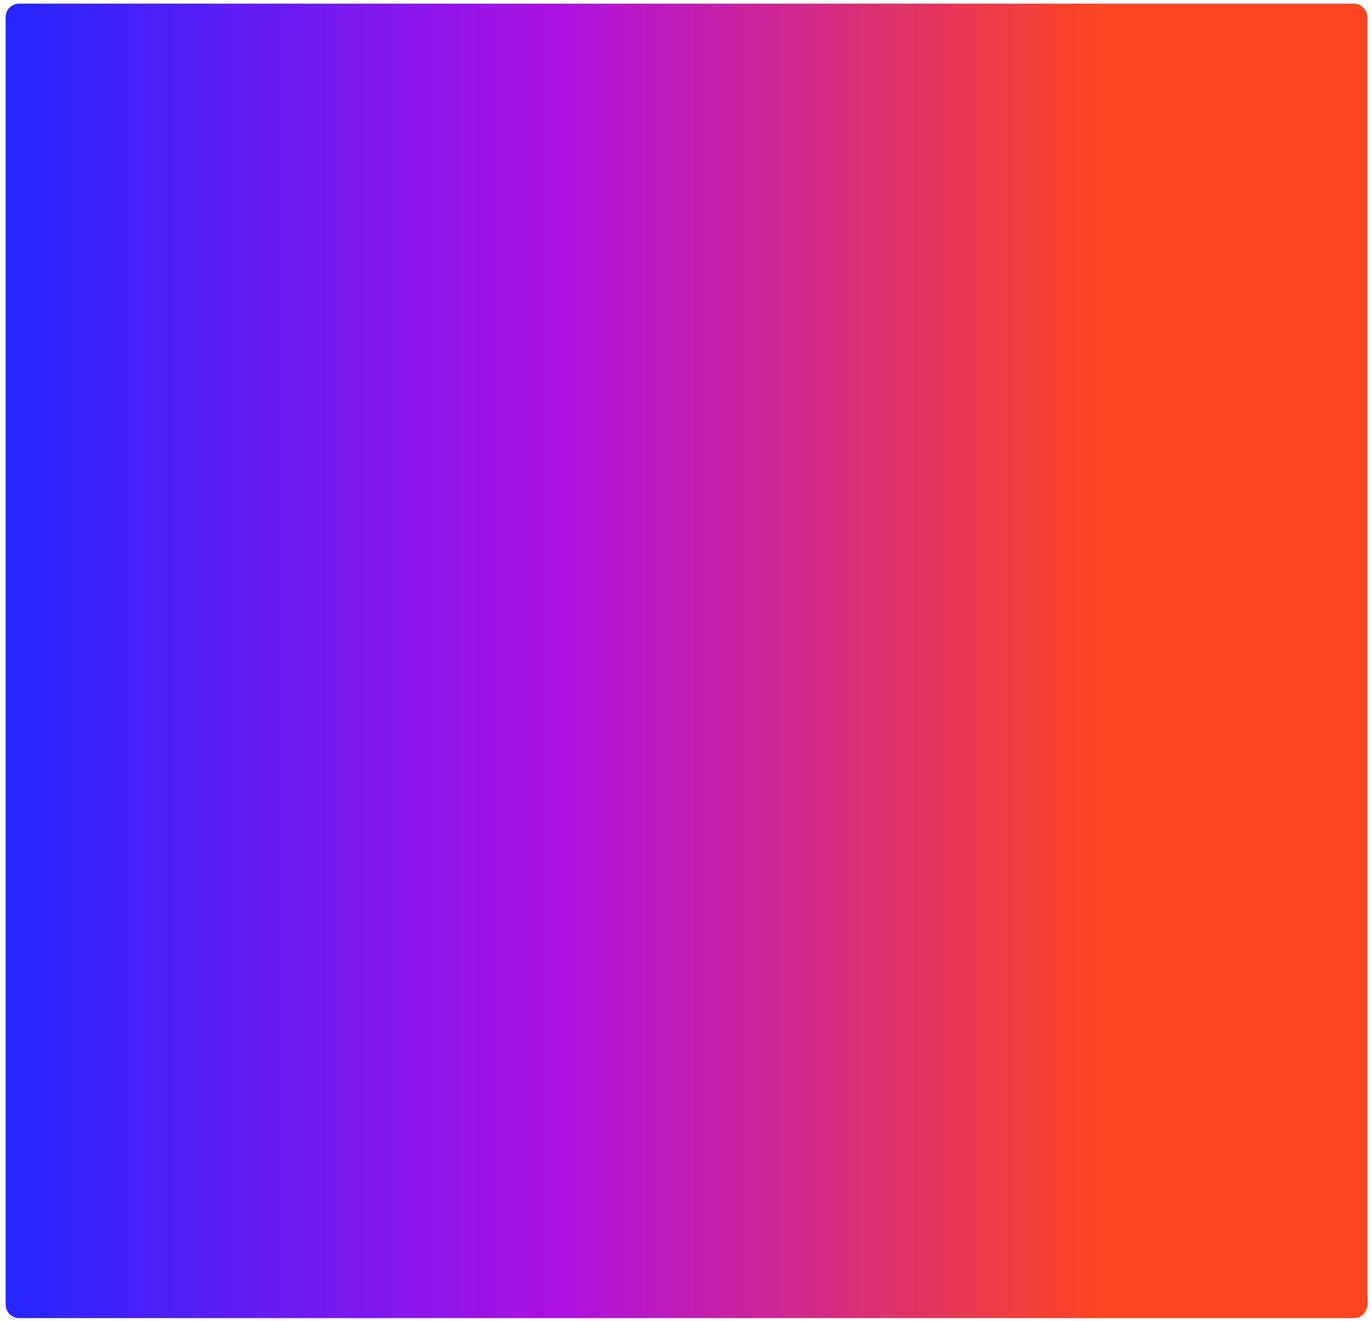

Color

Color is one of the most immediate and recognizable parts of our brand. It brings vibrancy and energy to our communications while helping create a strong, consistent presence across every application.

Color

Primary Palette

Our primary palette colors establish the core visual identity and are used in backgrounds, type, and other key elements. They can be utilized in both UI / digital interfaces and print.

Happen Orange
PMS: 172 C
CMYK: 0, 80, 98, 0
RGB: 253, 70, 33
HTML: FD4621

Happen Blue
PMS: 2728 C
CMYK: 99, 76, 0, 0
RGB: 38, 38, 255
HTML: 2626FF

Happen Black
PMS:
CMYK:
RGB: 35, 34, 34
HTML: 232222

Happen Eggshell
PMS:
CMYK:
RGB: 247, 241, 237
HTML: F7F1ED

White
CMYK: 0, 0, 0, 0
RGB: 255, 255, 255
HTML: FFFFFF

Semantics Palette

Our UI semantics palette communicates functional states (such as success, warning, or error) and is used for clarity in interfaces. They are not used as a part of our brand expression.

Red

Yellow

Light Green

Dark Green

Gradient Palette

These colors make up our gradient. While some are part of our primary palette (Happen Orange and Happen Blue), they do not appear on their own—e.g., no floods of Happen Light Orange and no Happen Purple type.

Happen Blue
PMS: 2728 C
CMYK: 99, 76, 0, 0
RGB: 38, 38, 255
HTML: 2626FF

Happen Purple
PMS: 2592 C
CMYK: 52, 93, 0, 0
RGB: 173, 17, 227
HTML: AD11E3

Happen Orange
PMS: 172 C
CMYK: 0, 80, 98, 0
RGB: 253, 70, 33
HTML: FD4621

Happen Light Orange
PMS: 151 C
CMYK: 0, 54, 100, 0
RGB: 253, 130, 36
HTML: FD8224

Gradient Palette Tints

We have the opportunity to use tints of our gradient palette. Use cases could include UI, illustration, etc.

Color

Accessibility

The WCAG standards define contrast ratios between text and background colors in digital applications to ensure readability.

- AAA and AA colors meet accessibility standards for both small and large text.
- AA18 colors only pass for large text (14pt bold or 18pt regular).

This grid shows which brand colors meet accessibility standards on different background colors.

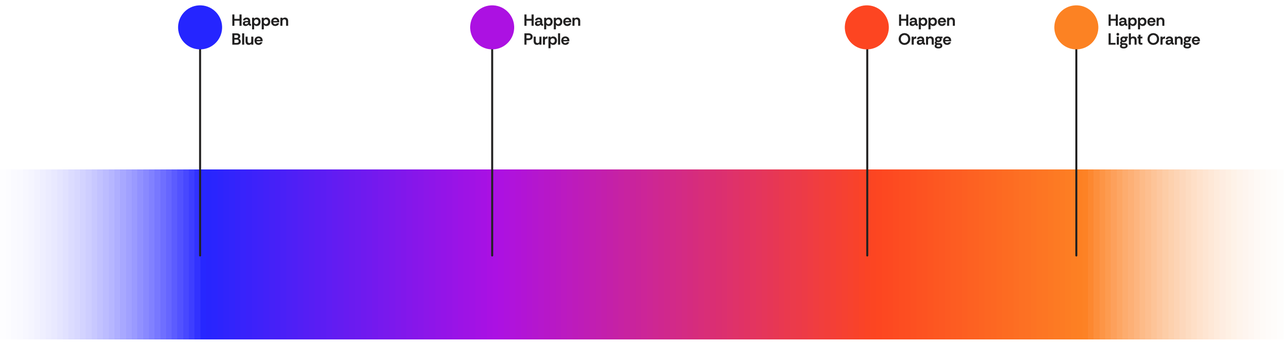

Background \ Text	#FD4621	#2626FF	#AD11E3	#FD8224	#FFFFFF	#F7F1ED	#232222

About WCAG 2.0 contrast

Gradient

Horizontal (preferred)

100% opacity (preferred)

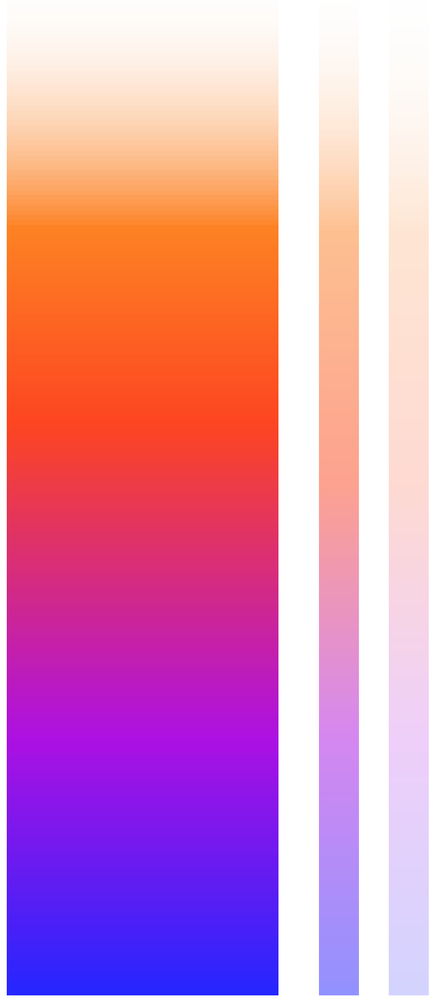

50% opacity (for UI and environmental moments)

20% opacity (specifically for UI use to denote inactive states)

- Gradient in most cases goes from Happen Blue to Happen Light Orange
- Gradient swatch order may not be changed (e.g. can't have a Happen Purple to Happen Orange to Happen Blue gradient.)
- Gradient can fade to transparent on either end
- Opportunity to tint / lower opacity to flex for UI, environments, etc.

Vertical (special use cases)

- Reserved for special use cases: UI, environments, or anywhere with extreme vertical formats
- Used where user flow makes sense: mobile scrolling
- Quicker brand recognition starting with orange at top
- Legibility / contrast type considerations when scrolling top to bottom

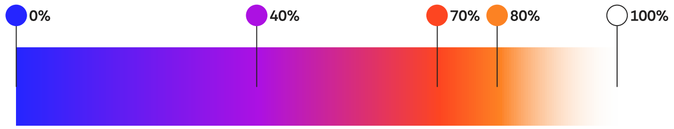

Gradient

Color Proportions / Ratios

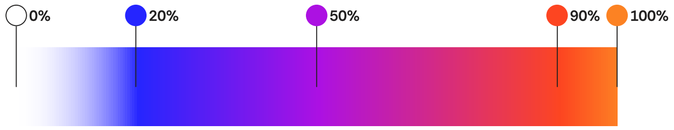

- Happen Light Orange should not have as much prominence as Happen Blue, Happen Purple, and Happen Orange.
- A 20% fade from last swatch to transparency is recommended
- The relationship between Happen Orange and Happen Light Orange should be about 10%

Full spectrum (4 swatches including Happen Light Orange)

Fading to transparent on white

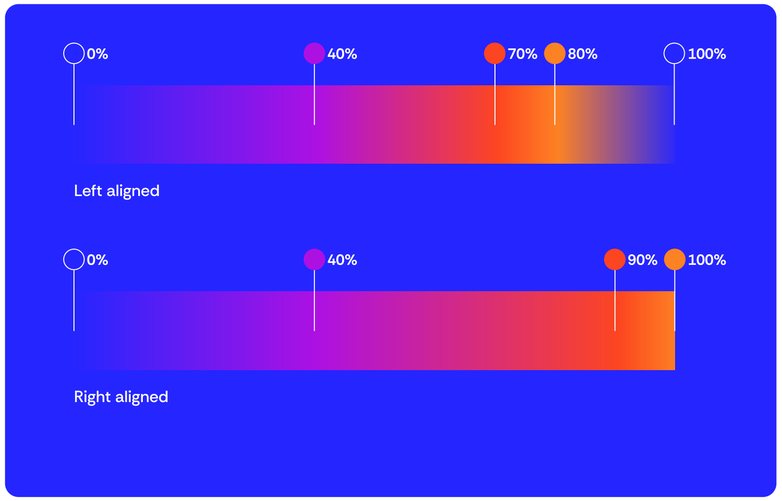

Left aligned

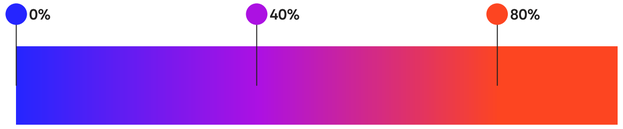

Right aligned

Fading to transparent on Happen Blue

Limited spectrum (3 swatches does not include Happen Light Orange)

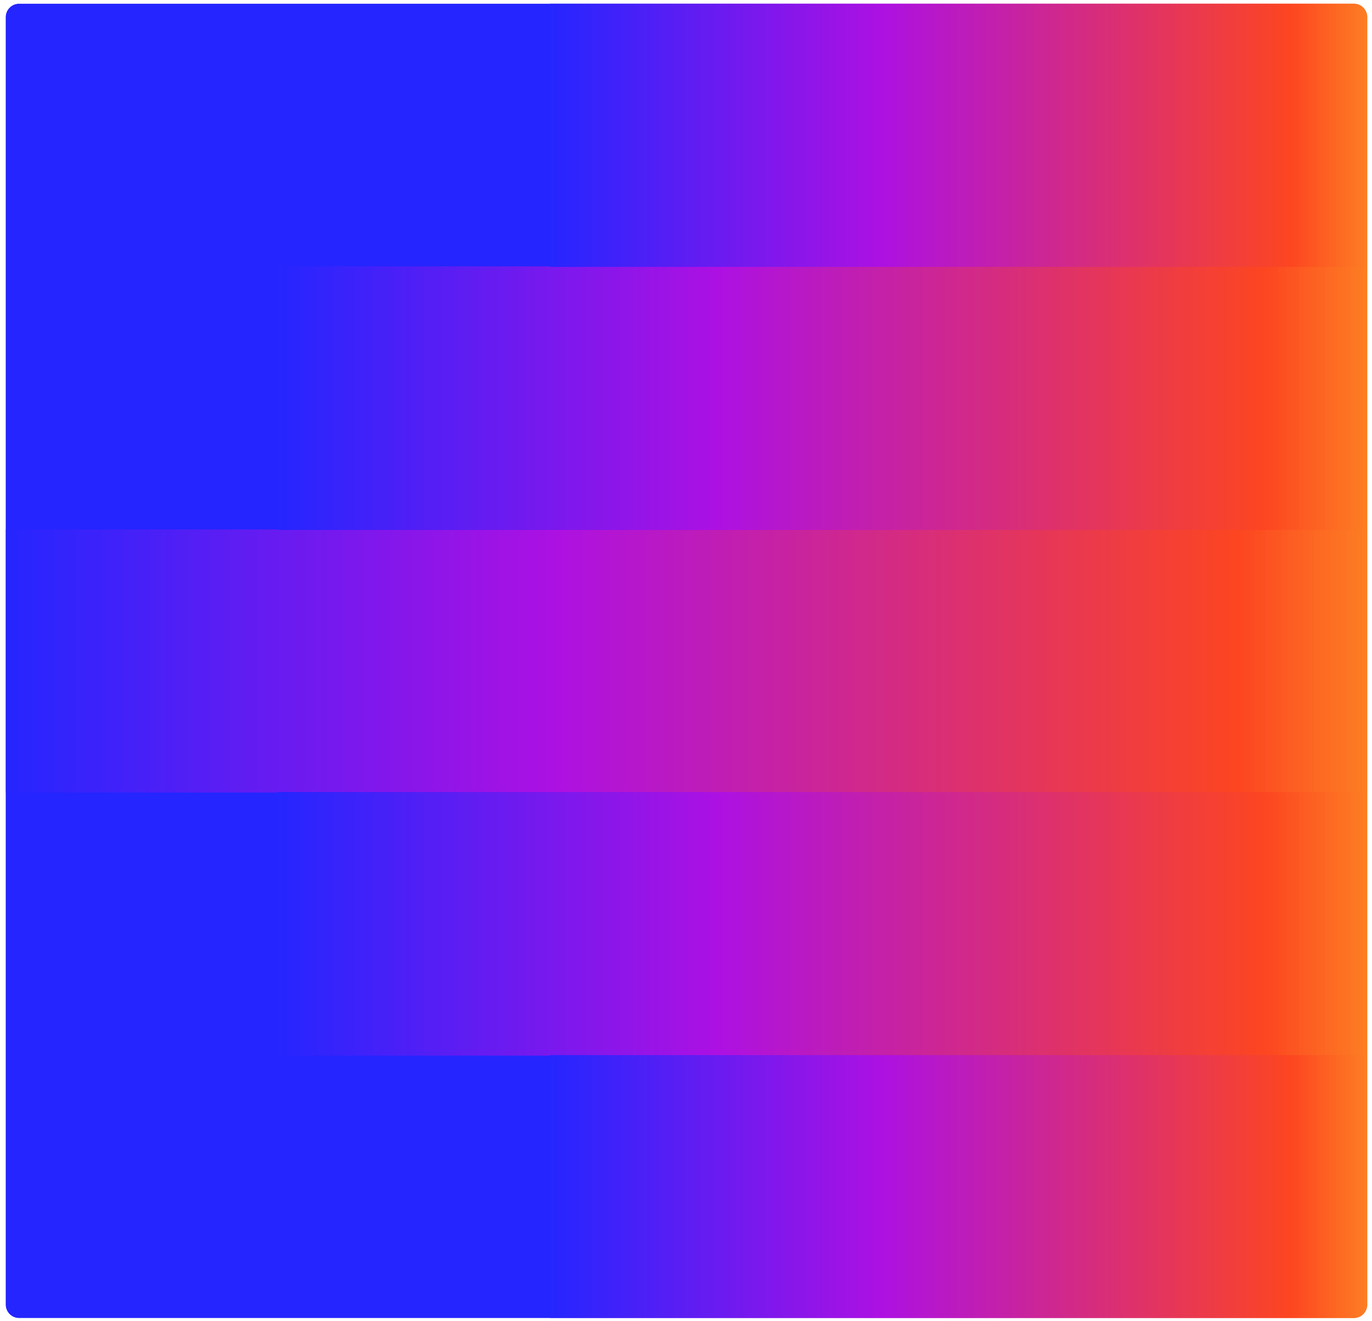

Does not fade to transparent

- Limited spectrum is reserved for special use cases where gradient does not fade to transparent or needs to hold contrast with typography. Examples could include: buttons, debit cards, swag, etc.

Graphic Motif

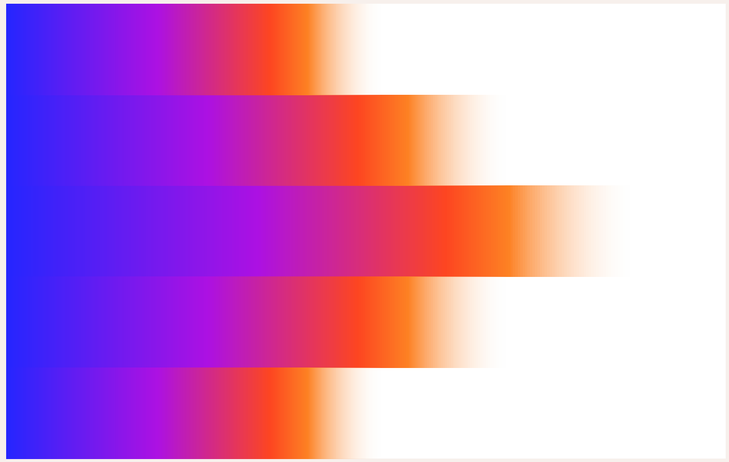

Our graphic motif is called The Clearline Field. It is the primary visual signifier of our brand in lieu of our logo. It can flex and scale to be used with photography, typography, or purely graphic.

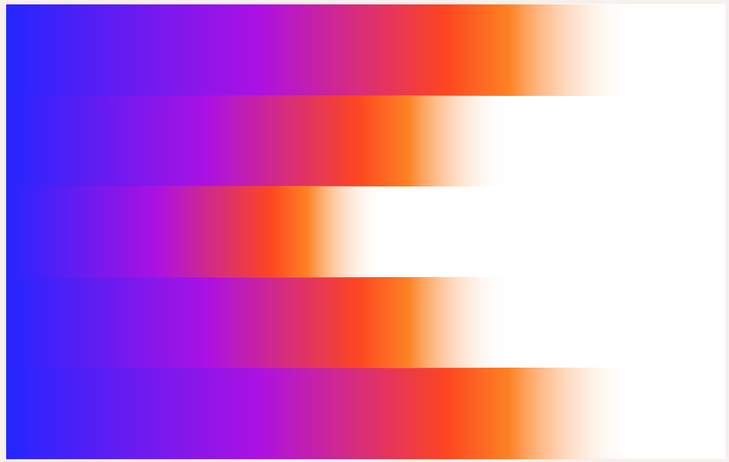

Clearline Field

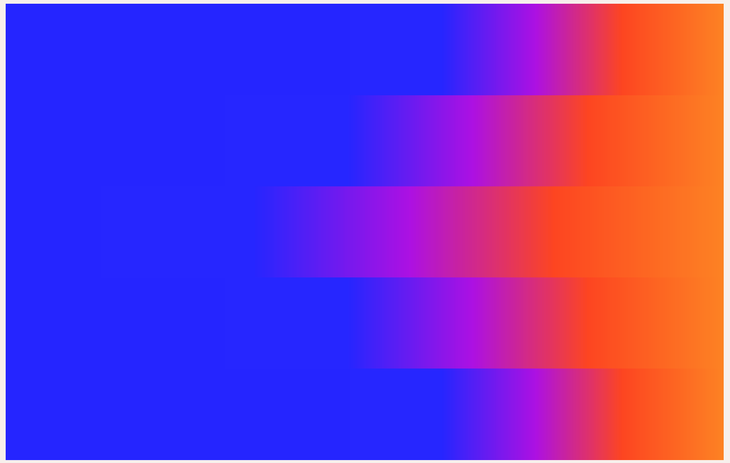

Used with copy / just graphic

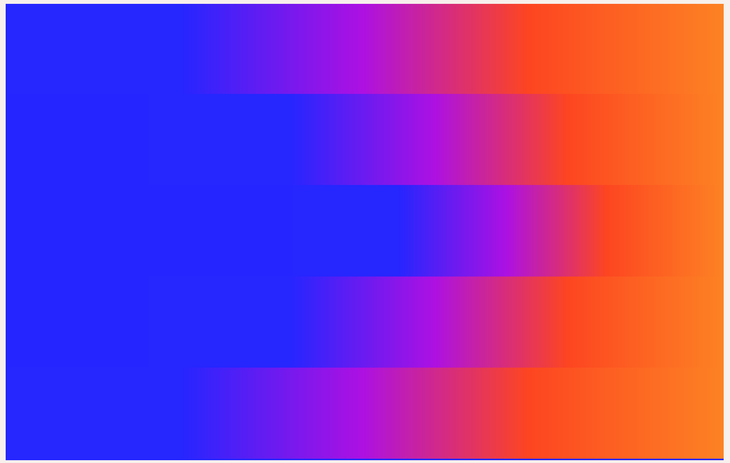

Clearline Field on White

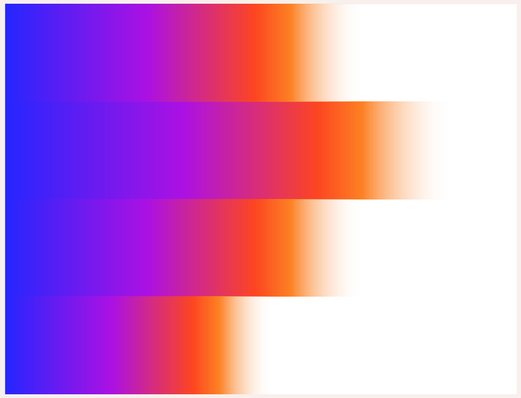

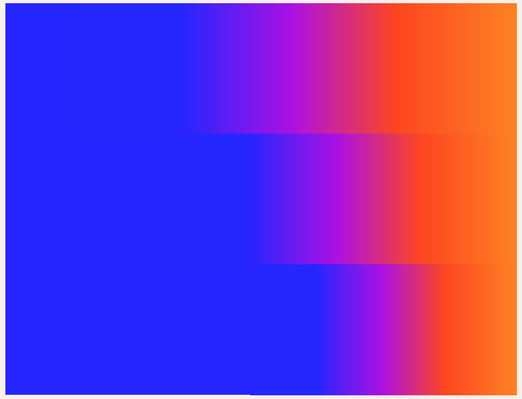

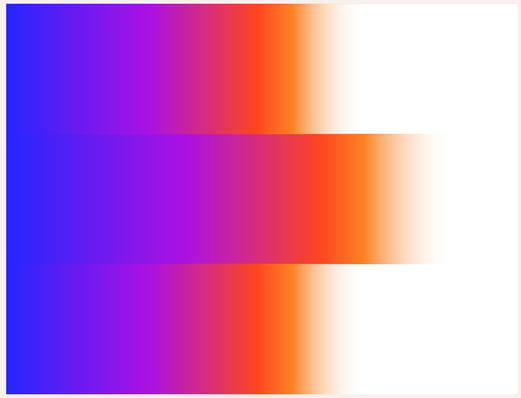

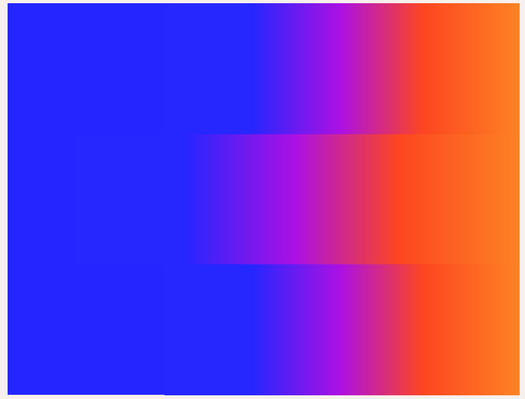

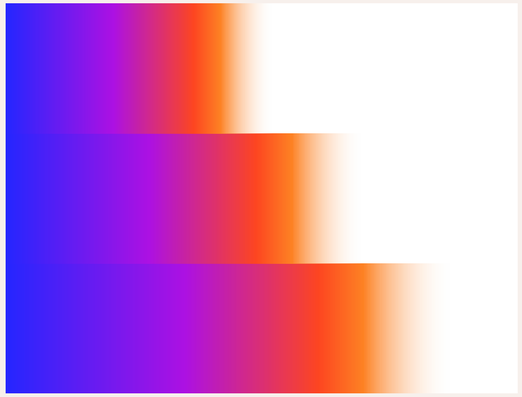

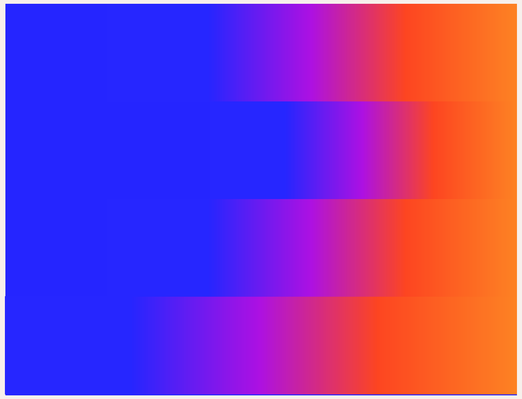

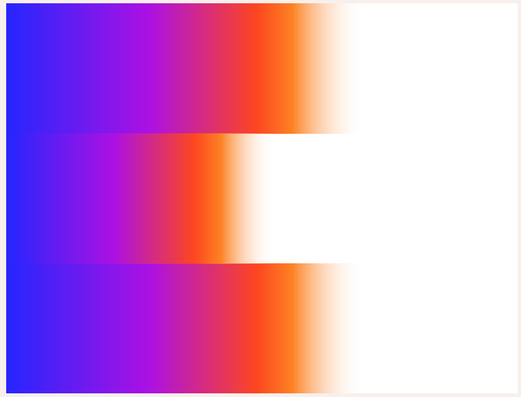

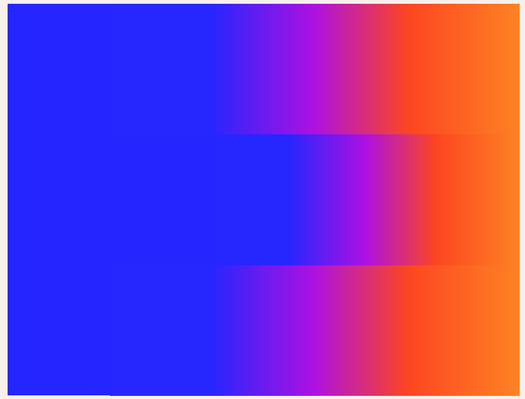

Clearline Field on Happen Blue

Clearline Field Crops

Examples, not limited to just these

Clearline Band

Used with photography

Clearline Band Small

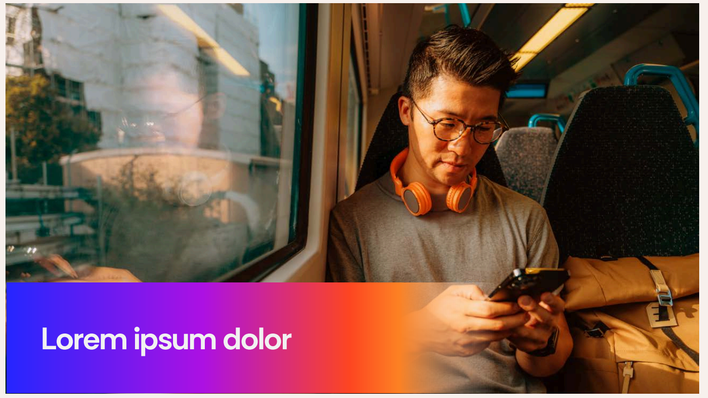

Clearline Band Medium

Clearline Band Large

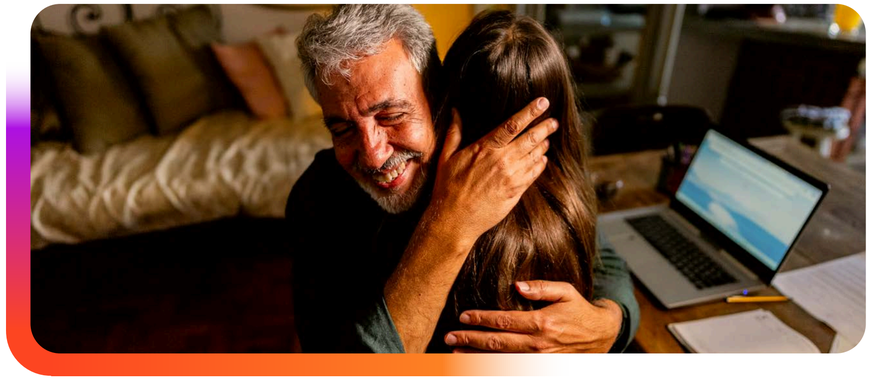

Clearline Highlight

Used to highlight / frame content or photography

Without Happen Blue on white

Flat

Glow

Without Happen Blue on Happen Blue

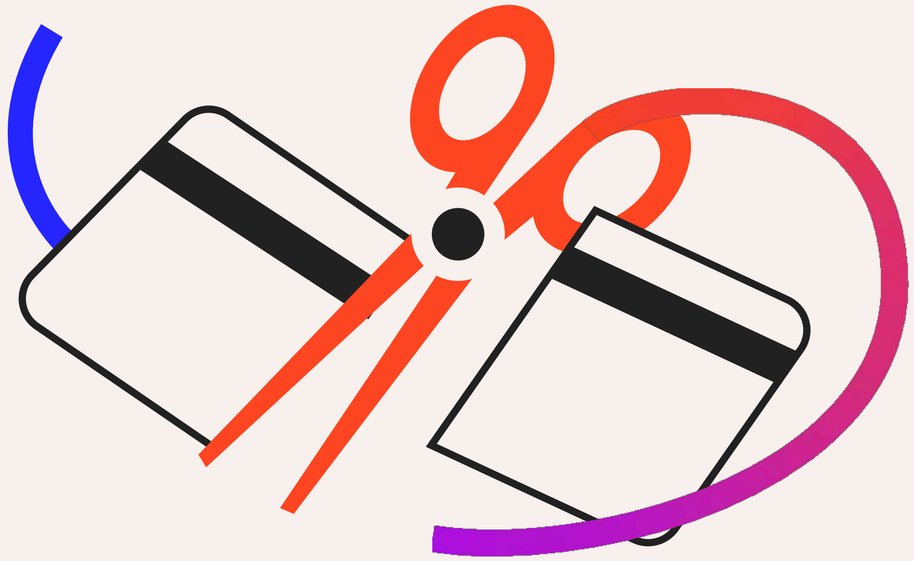

Flat

Glow

Illustration, Graphicons, & Icons

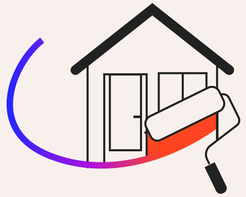

Our illustrations, graphicons, and icons are used to define brand narratives where photography can not.

Illustrations, Graphicons, & Icons

Illustration
Helps tell stories where photography can't

Graphicons
Existing, recolored

Google Icons
Mostly used for navigational icons, potential for minimal product representation
